Registration Records

A registration record states who will using a software application. You need to create at least one registration record.

Showing All Records. **[Hide Empty Registration Records]**

Create New Registration Record for a shared Lab Machine (A lab computer where Users use a common account username instead of their own username.)

Actions	Assignee (hide)	Type (hide)	RegistrationID (hide)	Last Review Date (hide)	Region (hide)	Country (hide)	Competency (hide)	BL-PL (hide)	Division (hide)	Supervisor: (hide)
	mzgcc6	user	6124.1931	2014-11-05	europe	PORTUGAL (PT)	Software	PWT-GAS	Delphi Powertrain Systems	**paulo.lobo@delphi.com**

	Application	Vendor	Features	Status	Created	LastUpdate
	Developer Suite	National Instruments	ALL	active	2014-11-05	2014-11-05

Note 1: You can only create 1 user type registration record for yourself.

Note 2: Only 1 person needs to register an application for a public lab machine. Everyone else can then use it.

Note 3: Registration records can not be deleted until all Applications for that Registration record have been deleted.
